- awesome TA! super smart and nice
- Great Job! He helped clear up any confusion about the topics and showed us how to solve problems.
- great TA. helped me plenty of times even outside of office hours. someone give this guy a raise
- He is a great TA.
- I wish he was the instructor instead. He is so good at explaining.
- John always comes to discussion with a prepared overview of what was previously discussed in lecture. Sometimes he does into concepts that are not too relevant or are hard to understand, but generally his sections have improved and are helpful overall. He also explains the textbook notation in relation to the way we learned in lecture, which is very helpful as well. I do with that TAs would be present at lectures the way SI section leaders are so that their discussion sections can be even more relevant and helpful.
- Very well prepared, he would go through the theory and the concepts of the topic and then problem solving.
