9. Do you have any other comments to add to your evaluation?

*Please keep your comments constructive and professional, abiding by the Principles of Community*

- Bad grading. I got 80% for a 95% midterm. :(
- He is very understanding of the fact not many people are in sync with mah and he explains things over and over to you until you get it.
- He was very polite and took the time for anyone who needed it to make sure they really understood the course material thoroughly. Very encouraging
- His speech was a bit hard to understand, which make it difficult to understand the math material
- John is a FANTASTIC tutor. He truly cares about us as students and clearly has a passion for mathematics. John was so helpful during office hours and even worked with our schedule to meet with us when we were struggling with the material. I would absolutely recommend John as a tutor in the future. Thank you so much John!! We will miss you. :(
- John went above and beyond to help me learn the course material. He was very patient and very willing to help me learn the concepts. He took time out of his own schedule to really help. I would highly recommend him to anyone.
- John/Sung was very good, helped a lot. He put in a lot of effort (e.g. extra sessions near exams)
- Sung is very respectful.
- You did a good job explaining how to solve problems.
