*Please keep your comments constructive and professional, abiding by the Principles of Community*

- He is a great TA, addresses student concerns, hosts review sessions, and covers course material well. The only issue I had was he often used a different technique or different variables than the professor taught in class and so it was sometimes difficult to follow the problem solving process used in discussion sections, however it often provided an alternative problem solving method which was somewhat useful. Overall, very accommodating and knowledgable TA.

- He was the best! He knew the material very well and was always available to answer any questions. He also made study resources that helped prepared for midterms and the final. Overall, excellent TA.

- Practice midterms were very helpful! Kind TA that is good at explaining concepts.
